\$0 for home health care services. 20% of the Medicare-approved amount for Durable medical equipment (DME) [Glossary]. Before you start getting your home health care, the home health agency should tell you how much Medicare will pay.

Home Health Services Coverage - Medicare.gov

Home care includes any professional support services that allow a person to live safely in their home. In-home care services can help someone who is aging and needs assistance to live independently; is managing chronic health issues; is recovering from a medical setback; or has special needs or a disability. Professional caregivers such as nurses, aides, and therapists provide short-term or long-term care in the home, depending on a person's needs.

What is Home Care and What are the Different Types?

"Home care" may include a variety of settings other than one's own personal home. For instance, seniors may receive in-home care in the home of a friend or relative, an adult foster care home, or an assisted living residence. (To learn more about receiving personal care services and supports in assisted living, click here). Please note that the settings in which one can receive services depends on the state and the Medicaid program.
