**Language In Mind**  
Language is a communication system that involves using words and systematic rules to organize those words to transmit information from one individual to another. While language is a form of communication, not all communication is language. Many species communicate with one another through their postures, movements, odors, or vocalizations.

**Language in Mind: An Introduction to Psycholinguistics ...**  
Guillaume's work opens avenues of reflection for the psychologist, the philosopher, the anthropologist, and of course for any linguist who is prepared to consider language in the mind. As with any original thinker, however, to approach his work one must have the docility involved in that "willing suspension of disbelief" required to understand what he has to say.
