The Value and Momentum Trader: Dynamic Stock Selection ...

Momentum trading means 'going long' securities that have outperformed in the recent past. "Value profits should mirror momentum profits, and vary over time...From 1926 to 2018, following negative market return, the average so-called value premium is about three time its unconditional counterpart, whereas it appears to vanish following positive market return... Risk-adjusted value strategies are not profitable following periods of market gains."

ValueMomentum | IT Services & Software

Momentum investing is strictly a technical trading strategy. Unlike fundamental or value investors, momentum investors are not concerned with a company's operational performance. Momentum investors apply technical indicators to the analysis of a security in order to identify trends and gauge the strength of the trend – in other words, to determine the level of price momentum in the market.

Momentum Investing - Strategies and Types of Momentum ...

The technique of momentum trading is nothing new, but the way this author combines momentum analysis refined by value analysis adds a confidence level to short term trading by having underlying fundamental strength to fall back on should you get stuck in a position longer than you may have originally intended.
