Why We Love The Nature

If you want to understand this central quality of human nature to its roots, read *Why We Love.*" —Edward O. Wilson. In *Why We Love*, renowned anthropologist Helen Fisher offers a new map of the phenomenon of love—from its origins in the brain to the thrilling havoc it creates in our bodies and behavior. Working with a team of scientists to scan the brains of people who had just fallen madly in love, Fisher proved what psychologists had until recently only suspected: when you fall in love ...

Why We Love: The Nature and Chemistry of Romantic Love ...

Why We Love begins by presenting the results of a scientific study in which Fisher scanned the brains of people who had just fallen madly in love. She proves, at last, what researchers had only suspected: when you fall in love, primordial areas of the brain "light up" with increased blood flow, creating romantic passion.

nature, or even just outside, are endless. There is always something to do, whether it is just taking a walk alone, or hanging out with friends on a sunny day. There is always something that you can do to keep yourself occupied, and that you can have a fun time, while being outside.

Why I Love Nature - The Odyssey Online

Being in nature reminds me that life is so beautiful and precious, and inspires me to live with more intention. Jurian Hughes. My favorite way to get outside is to take a "breath walk.". I walk for five, 10, or 15 minutes, or more, and simply focus on taking deep inhales and exhales.

Why I Love Being in Nature | Kripalu

One of the better known theories, the "biophilia hypothesis," suggests that we love nature because we evolved in it. We need it for our psychological well-being because it's in our DNA. This theory rings true to me. But it's so broad, it also leaves me grasping for more.

10 Reasons Why You Feel So Good in Nature - EcoWatch

Personally, nature reminds me of how small I am in the grand scheme of things. And how much beauty co-exists in a world that can be cruel and unfair. There is beauty all around, if we take the time to notice and enjoy it. There is a sense of awe in nature that makes me feel connected to all we miraculously happen to be apart of.
